Eagle and Maple Leaf

(Front Cover)

The official emblems of two great nations merge to form the obverse of the official medal of the A.N.A.-C.N.A. Convention of 1962. The bond of friendship between the United States and Canada is emphasized by the peaceful eagle with sprig of laurel beside the strong, graceful lines of two maple leaves.

This original design is the artistic creation of Marshall Fredericks, distinguished Detroit sculptor. Internationally famous, he is considered by many to be one of the world's greatest.

COMBINED 1962 CONVENTIONS

Sheraton-Cadillac Hotel • Detroit, Michigan

August 15-18, 1962

Welcome to Detroit

This year's convention will remind us that Numismatics is a universal word, belonging not to one locality, but to all nations. Being aware of this, capable officers of the A.N.A. and C.N.A. have conceived this first combined convention. Collectors everywhere hail this triumphal advance in numismatic history.

Detroit is extremely proud to be chosen host to this international representation. Visitors will find minimum restrictions and no militarized border between the two countries. The Motor City welcomes you with an array of new buildings along its waterfront. The Sheraton-Cadillac is in the heart of town, so that guests can fully enjoy the city.

My sincere thanks to the officers of both associations, and to the committees, for their great help and support. It has been an honor to serve this international convention that is making history.

EARL SCHILL,
General Chairman

The Detroit Coin Club, as host, welcomes the American Numismatic Association for the third time and becomes the first United States coin club to play host to the Canadian Numismatic Association.

The Detroit Coin Club is very grateful for this honor because it was at the 1923 A.N.A. convention in Montreal, Canada, that organization of our Club was initiated. Detroit holds life membership No. 23 in the A.N.A. and held the successful conventions of 1925 and 1940.

We are proud of our Club. Many of our members have international reputations in the numismatic field. The various committees have worked hard to give you the finest coin convention ever held. The exhibits, both Canadian and U. S., will be the most lavish ever shown on this continent. The daily programs of educational discussions and pleasure trips will never be forgotten and will be the subject of many a talk. And we anticipate that many who attend will improve their collections in the large bourse and three auction sessions.

So, once again, welcome to Detroit. We will try to please you in every way and help you to enjoy your visit here.

SPECIAL NUMISMATIC ATTRACTIONS

Two unique exhibits will be open to all who will take advantage of the opportunity, but they cannot be moved into the convention hotel. The two-year-old Money Museum of the National Bank of Detroit is only two blocks from the hotel, and will be open to visitors from 10 a.m. to 4:30 p.m., Monday through Thursday, and 10 a.m. to 5:30 p.m. on Friday. Special convention tours of the Museum and the new Bank may be arranged by telephoning WO 5-6000, extension 2442, during banking hours.

Due to U. S. laws relating to coinage, the Elizabeth Wyn Wood exhibit of Canadian coin drawings, plaster models, etc., could not be brought to Detroit. The Windsor Coin Club has secured the Colonial Room in the Norton Palmer Hotel for showing this most unusual exhibit from 10 a.m. to 10 p.m. on Friday, August 17. Other Canadian numismatic items will be exhibited also, all without charge. Windsor may be reached by a short bus ride and there is very little formality involved in entering and leaving Canada. Residents of the U.S. and other countries should have evidence of citizenship, such as a voter's registration card or birth certificate. The convention Tours Desk can furnish directions and other information.

THE SPIRIT OF DETROIT

This beautiful sculpture by the famed Marshall Fredericks is the symbol of Detroit, home of the convention. It is the inspiring centerpiece for Detroit's impressive waterfront Civic Center. The kneeling figure represents the spirit of man as an expression of God. The spherical composition in his left hand is symbolic of God with the three encircling bands representing the Holy Trinity. The right hand shows a family group—mother, father and child.

The beautiful Civic Center faces our friendly neighbor, Canada, and "The Spirit of Detroit" becomes "The Spirit of the United States and Canada." And so with humble pride, the versatile Marshall Fredericks designed and conveyed this thought on the reverse of the official A.N.A.-C.N.A. 1962 convention medal.

GREENFIELD VILLAGE

Landmarks of American History are collected at Detroit's Greenfield Village, founded by Henry Ford. You may browse through actual houses, shops, schools and public buildings where history has been written. They have been moved bodily to this 200-acre site from various parts of the U.S., and from some foreign countries, and restored to their original appearance.

In the adjacent 14-acre Henry Ford Museum are spread out the fully stocked shops, the tools and machines, the furniture and household implements which made up the way of life of our fathers and grandfathers. The Colonial entrance to the museum is an exact copy of Independence Hall in Philadelphia, "birthplace of American democracy."

The Detroit River And Ambassador Bridge

The river from which Detroit takes its name (it means "the straits" in French) is the world's busiest waterway. Though Detroit is several hundred miles from salt water, ships of the seven seas dock here. It is also the second most active United States port in value of exports and imports.

The Ambassador Bridge, linking the United States and Canada, is the world's longest international suspension bridge. A most impressive facet about a Detroit to Windsor crossing, is the unmilitarized frontier. Except for custom and immigration officers, no guards stand along the United States-Canadian boundary.
